

**TRANSPORTATION: PEDESTRIANS AND PASSENGERS COMMITTEE**  
**MEETING MINUTES**

The Committee met on May 20, 2010 from 8:30-9:30 at the Center for Neighborhood Technology

Members Present: *Co-Chair, Brent Norsman; Eleanor Mayer; Joe Hall; Ben Helphand; Carolyn Helmke; Taylor McKinley; WPB Program Manager Jamie Simone*

- I. Sidewalk Survey
  - a. The Committee suggested WPB meet with the Alderman's office to present findings and highlight the high risk areas for them and organize data so they may use the information efficiently.
- II. Bus Tracker
  - a. A general discussion took place for the need to educate and possibly advertise the Bus Trackers utility. WPB Staff to reach out to Bus Tracker / Red Post and request they come up with some program changes that would help educate/ inform at the actual Bus Tracker Kiosks. They will also ask them to come up with design improvement ideas for the actual information displayed.
- III. We Are Beautiful mural installation to proceed. WPB staff has reached out to the original artist to see if they have an opinion on its installation, otherwise installation to proceed with Christy Weber pending final agreements with Freed and Associates.
- IV. ATA Mode Study
  - a. Active Transportation Alliance to provide a draft summary report and press release at next meeting in an effort to get the word out about its completion.
- V. Expressway Underpass Improvements
  - a. A general discussion took place about the possibility of approaching a school to do a design studio to generate ideas and bring attention the need to improve the underpass conditions for pedestrians and cyclists.
